

June 2017

To George and the Cameo Kitchens team:

Cameo Kitchens was highly recommended to us as we planned our kitchen renovation, and for good reason. We are thrilled with our beautiful new kitchen and fireplace area, and we are passing on the praise for Cameo to friends, neighbors and colleagues.

We threw a party after our kitchen was completed, as friends and neighbors were excited to come and see it. They gave it rave reviews: the glass-front-and-sides cabinet displaying our crystal, the custom cabinets that Mike designed intelligently to make the best use of space, the gorgeous travertine backsplash, the crown molding, and the granite inset into the floor in front of the fireplace. All these features took innovation, talent and artistry. Thanks to the team of very experienced and professional craftsmen at Cameo, it all turned out even better than we imagined.

From the first meeting with George and Mike, to the last walk-through when the kitchen was done, the Cameo team attended to every possible detail in a pleasant, professional and thorough manner. They gave us confidence from the beginning that this project, the most detailed and costly we've undertaken in this or any home, would be in good hands.

Everything went exactly on schedule. The Cameo team planned everything diligently, and anticipated issues so that the renovation went as seamlessly as possible. It was valuable to us to be able to trust that Cameo arranged, scheduled and managed all aspects through to completion.

We sincerely thank everyone on our team, and give them high commendation. Mike, our kitchen designer, displayed endless patience, attention to detail, and a very calm professional demeanor. He was perfectly punctual, innovative, and came up with solutions to give us a kitchen that not only meets our needs but also delights. His adaptability to our developing preferences, flexibility and unfailing attention to every detail clearly demonstrate his commitment to his clients.

James and Chad are great team leaders and master craftsmen. They communicated with us very well, offered expert solutions and innovations, and patiently answered all our questions. They ensured attention to every detail and pride of craftsmanship in every aspect of the kitchen. When James encountered a challenging fit for the crown molding above our kitchen fireplace, he engineered a perfect solution. Chad pointed out plumbing issues that we hadn't anticipated, and with his and the plumber's scrupulous attention to making sure these were resolved, the improvements gave us the best possible outcome.

Justin is a true artist, proven in his creation of a backsplash that is beautifully executed. He discussed every aspect of it with us to make sure it was exactly right and that it met his own high standard. Shannon worked with us on features of the electrical layout and hardware that ensured this crucial aspect of the kitchen went leaps beyond what we had before, and we greatly appreciate his expertise.

The whole team gave us confidence that Cameo would see the project through, in all its complexity and with all the project's moving parts, to a very successful completion. Everyone on the team was pleasant to work with, reliable, talented, professional and dedicated to ensuring their client is pleased with the new kitchen. We now have a kitchen that is beautiful and very functional, with custom touches that make it truly our own. It was a pleasure to work with a local company committed to excellence and dedicated to their customers.

Our sincere thanks to you all!

Best regards,  
Scott and Kathleen Curthoys
