Mr. George Keul
Cameo Kitchens
7297-M Lee Highway
Falls Church, VA 22042

December 19, 2013

Dear George,

Been hearing any loud noise coming from the Oakton area? Don't worry. That's just us applauding our new kitchen. We love it, George.

Our thanks go to Tammy for guiding us through the design and the contract process and to you and all the crew for bringing that design to life. Some people have a difficult time picturing the final product, but we had a vivid image in our mind, and Cameo did not disappoint in the least. Not only is the kitchen as beautiful as we had imagined, but it is far more user friendly. The many drawers are a godsend to knees and backs, and the LED under-cabinet lights are the answered prayer to aging eyes.

As we bragged to Tammy in an email weeks ago, your subcontractors who handled the plumbing, electrical and granite were top-notch. You and Karl could not have chosen better craftsmen.

We are especially indebted to our highly skilled and delightful foreman Luis and to his team -- Carlos, John, Pedro, Gabby and Andre (our apologies if we've forgotten someone) -- for their painstaking attention to detail. They jumped to fix any flaw and went to whatever lengths it took to ensure the work was both precise and beautiful. Plus they were a joy to see each morning.

Forget that famous NBA Dream Team that went to the Olympics, *these guys* are our Dream Team.

We thank you all.

Sincerely,
David & Wanda
