

Cameo Kitchens,

I wanted to send a personal note to let you know how satisfied we were with our project. Overall, we were very pleased with your entire company and all the many people who helped make our kitchen a fabulous place to be.

More specifically I wanted to talk about your work crew with whom we of course got to know quite well as we spent several weeks together. John Salazar managed the job very well. He is so easy to talk to and did a great job of making sure we were happy with the quality of the work as it was being performed. He let us know each day what work would be taking place and if we had any questions.

Joel Rios, Pedro Barrera, Gabriel Gonzalez, and Edgar Riano rounded out the group spending the most time in our home. Each person was careful about working within our home and everyone cleaned up very nicely each day. We were told that the work would start at 7:30 each day and sure enough, the crew was incredibly punctual and ready to go to work precisely at 7:30 every day.

It was evident everyone was proud of their personal work and would not settle for just ok. If they did not like something they stuck with it until they were satisfied. Then and only then did I get to inspect the work and if I wanted something changed (very rare) they responded without issue.

I was very interested in the project and appreciated how on occasion we actually worked as a team to figure out the best choice to make. Thank you for allowing me to participate in that regard.

No letter would be complete without expressing appreciation for our designer, Mike Macklin. His work is amazing and guided us so well in making good, long-term choices. Of course we had some differences in design choices which is normal, but he was always professional, open, and very helpful. We truly could not be happier with our final masterpiece and have no regrets on our choices.

Thank you for providing the kitchen of our dreams!

Sincerely,

David and Janet DeCarlo
