Cameo Kitchens Inc.  
7297-M Lee Highway  
Falls Church, VA 22042

Attn: George Keul

Dear George and the Cameo Team:

It is difficult to believe that Cameo Kitchens began my kitchen remodeling project nearly a year ago and I am finally writing an official letter of thanks for one of the most beautiful kitchens I have ever seen, despite its relatively small size. In fact, my kitchen is too nice for this townhouse condominium development. Cameo even managed to make the kitchen look much larger.

George, once again I want to thank you in particular as my outstanding designer, as well as Gary and the entire team who worked on my kitchen. I am very grateful for your tremendous assistance, professionalism, knowledge, expertise, integrity, patience and kindness. You provided excellence guidance in selecting the best possible materials for this wonderful, more contemporary style kitchen.

It was fun working with Bob, "Rambo" Steve, Casey, Jhon, electricians Robert and Kyle, and others. Gary, thank you for following up with the final changes and for being such an excellent problem-solver.

It was a pleasure working with all of you and dealing with the office staff/members of the Keul family. Katie, Kelly, and Lee were most helpful whenever I dropped by when you were busy. It was also nice that Karl dropped by to see the almost final results. Casey did an amazing job on the floor and backsplash.

In addition, Chris Bove at ADU and Malou at Mosaic Tile were extremely helpful and offered quality products. Stone & Tile Expo in Sterling had a wonderful selection of granite, and Melvin at GLB Granite fabricators was also helpful, and GLB is quite an interesting place to visit.

My friends and relatives who have seen the kitchen think it is gorgeous, and some have even described it as magazine worthy. A year later, they are still commenting on how beautiful and warm looking my kitchen is. I must agree that it is better-looking than most

of the kitchens featured in magazine and in million dollar homes. The only other kitchen as beautiful as mine that I have seen in this area was also designed by George and was what sold me on Cameo. The quality of the products used, attention to detail, and fine workmanship is incomparable.

I highly recommend Cameo to anyone and have already done so. While some have not followed up, it will be their loss as they undoubtedly will never find a nicer group of professional experts who finish the job on time with such outstanding results.

Warm regards to George and the entire Cameo team and best wishes for continued success in the years to come.

Thank you again for my lovely kitchen.

Sincerely,

*Linda DerParseghian*
