

## Review for Cameo Kitchens, Inc.

pfleet

Relationship: Client

Project Date: May 2015

Project Price Range: \$50,000 - \$100,000

We spent roughly two years getting several estimates for our kitchen remodel. It was a tough decision! Time and time again, when speaking to the managers and staff from the appliance stores, flooring companies and countertop suppliers they raved about Cameo stating they are "flawless" "the best" and " have outstanding customer service"..... this is what finalized our decision. We knew we'd be spending a lot of money on this project (no matter who we hired) and Cameo stood out with their referrals and their professionalism during the estimate. Now that our kitchen is completed, I can't tell you how happy I am that we chose Cameo! We love our kitchen and enjoy it every day. Tammy, our designer from Cameo, was very helpful, professional and patient during the planning process. Cameo's workers arrived on time every morning, genuinely seemed happy to be working on our kitchen and each employee really seemed to care that we were satisfied with every aspect of the project. Their attention to detail was impressive and it's clear that they have a meticulous plan in place to get the job done right the first time and ON time. We had white inset style cabinets installed and they are beautiful. We are very happy with the quality of the cabinets from Honeybrook. We also had a make up air damper installed (per code) for our commercial range and hood. A few of the other companies didn't seem to understand how to install the make up air damper per code but Cameo said "no problem" and took care of it without a glitch. We had the cabinets brought up to the ceiling, interior and under cabinet lights installed and new commercial appliances installed. They were very careful to protect our floors (even though we were having them refinished) and they did a great job controlling the dirt and dust with plastic partitions around the kitchen. After the work was completed there were a few minor things that needed attention and they were very responsive and came right out to fix things. If you're considering Cameo for your kitchen remodel I give them my highest recommendation!!
