Dear Lee:

Please accept our sincere thanks for the special efforts you made to ensure that our kitchen project went smoothly. The whole effort was a tremendous success from beginning to end, primarily due to your steady hand in helping us with a design that managed the space available, and suggesting products that have enhanced the overall look and feel.

Please also extend our thanks to Bob for his outstanding performance as a foreman and worker. He was always the first to arrive each day, kept us informed of the day's activities, monitored carefully the work of the subs, never forgot to clean up at the end of the day, and always went the extra mile to make sure that we were satisfied.

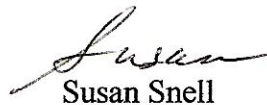

Evidence of your success was the visit to our house by our neighbors, the Colglaziers, who had been working with another company and who apparently switched promptly to Cameo.

Our best of luck to you in your new assignment. Enclosed is the final payment which we are happy to provide.

Regards,

Tom Callanen
