RE: Kitchen Renovation

Dear George,

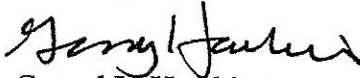

I am writing to thank you and all of the other persons at Cameo Kitchens who worked on my recent kitchen renovation for a terrific job. Hiring Cameo Kitchens was the best decision I made in pursuing this project.

After contracting with you in early October 2009, you started the project as scheduled on December 7, 2009. You efficiently completed a relatively complicated renovation, which included expanding an existing window, removing the wall between the kitchen and dining room and replacing an existing door, on January 7, 2010, exactly 30 days after starting the project and notwithstanding the occurrence of a major snowstorm and a couple of days off for the holidays during this period. The craftsmanship and attention to detail were terrific and matched the beauty of the Honey Brook cabinets and the quality of the overall architectural design of the kitchen project.

Special thanks go to you for helping with the design of the project and to Steve Drucker for leading the actual renovation, but I know that this project could not have been done without the hard work of all of the other persons at Cameo Kitchens who worked on my kitchen, to whom I also am very grateful. All did their jobs with quality and efficiency and were a pleasure to deal with.

Needless to say, I give Cameo Kitchens my highest recommendation and would be glad to serve as a reference for your firm in the future.

Sincerely,

Gerard L. Hawkins
