To: Tammy

Hi Tammy, it was a pleasure seeing you today. As I said when seeing you, I am very pleased with the work that Cameo Kitchens did for me on remodeling of my kitchen. *I am especially pleased by your design.* Most of all, when I changed the design to 1) add a remodeled pantry, and 2) to put in new flooring, you and the staff at Cameo Kitchens a) took measurements, and b) worked closely with me to accommodate my proposed changes. It was because of your excellent design that these changes could be accommodated when I sought them. This is truly professional.

Moreover, each day, your employees at Cameo cleaned up the work area so that it was presentable when I came home. I got recommendations from other neighbors about the work that Cameo Kitchens did. Now, I, too, am a pleased Cameo consumer of your kitchen remodeling services.

I am pleased that my next-door neighbors have hired you and Cameo Kitchens to remodel their kitchens. I know that you all will do a superb job in this remodeling.

Most of all, I think you are not only an excellent kitchen designer, whose design I most appreciated when seeing it, but a very professional designer with whom I appreciated working with. I would recommend you, and Cameo Kitchens, to anyone whom inquired, especially other neighbors at Cathcart Springs.

BTW, the salesman at Somerville with whom I worked is named Dan Frixone. He took especial care of me once I told him I was working with Cameo Kitchens. The telephone number for Somerville, which you probably know, is 703 584-1500. Dan is an excellent salesman whom works closely with you to find what YOU want in kitchen appliances, as well as, for me, bathroom fixtures, and is not pushy. I got the Cameo discount because of my contacts with Cameo Kitchens. In other words, he takes time to work closely with the customer, and provides excellent service. I do recommend him as a contact point for you, and for others at Cameo Kitchens as he has taken good care of me in terms what I was looking for, and found, at Somerville.

I hope to see you again in November when you begin working on the kitchen of my neighbors. I showed my neighbors the excellent work that you, and Cameo Kitchens did, on my kitchen, and that is why I recommended that they contact you, and Cameo Kitchens, for their remodeling job. I think they were pleased by seeing my kitchen, and I hope they will be pleased by the work that you do, and that of the other staff at Cameo.

Regards,

*William Barton*
